## LIFEVET PT PULSE OXIMETER WITH TEMPERATURE MEASUREMENT

The portable LifeVet PT can measure and display the functional oxygen saturation of arterial haemoglobin (SpO<sub>2</sub>), pulse rate and body temperature in real time in dogs, cats, and horses. All important parameter information can be easily read on the large LCD display.

- Small, handy and sturdy
- Immediately ready for use – no calibration necessary
- Display of oxygen saturation from 35 to 100 %
- Display of the pulse rate from 25 to 400 beats per minute (bpm)
- Display of body temperature from 18 to 45 °C
- Alarm limits (optical & acoustic) individually adjustable
- 2.8" TFT LCD colour display with battery level indicator
- Can be connected to a computer via USB
- Test results can be stored for up to 360 hours
- Dimensions (in cm): H 14.2 x W 7.8 x D 2.8
- Weight: 250 g (device only)

Incl. SpO<sub>2</sub> sensor with two sensor clips (large & small), temperature probe, universal charger, USB cable, Li-Ion battery, protective silicone case and holder for tabletop use.

321860

€ 290,-

## LIFEVET CP CAPNOGRAPH AND PULSE OXIMETER

The LifeVet CP handheld Capnograph and Pulse Oximeter measures and displays the expiratory CO<sub>2</sub> concentration as well as the respiratory rate, pulse rate and oxygen saturation in dogs, cats and horses. This compact and portable device is very easy to use with its touchscreen display and intuitive interface.

- High resolution 4.3" touchscreen display
- Side-stream capnography
- EtCO<sub>2</sub> concentration: 0 – 150 mmHg
- Respiratory rate displayed in rpm
- SpO<sub>2</sub> range: 1 – 100 %
- Pulse rate: 25 – 250 bpm
- Audible and visual alarms with adjustable volume
- Long-life lithium battery: up to 18 h operating time
- Dimensions (in cm): W 7.7 x H 14.1 x D 3.6
- Weight: 420 g

Includes: CO<sub>2</sub> tube, CO<sub>2</sub> filter, net adapter, USB cable, clip sensor

321880

€ 1250,-

## LIFEVET 10M MULTIPARAMETER MONITOR

vetpood.ee

The LifeVet 10M is a fast, accurate and comfortable patient monitor that is characterised by its high ease of use and reliable technology. Its innovative technology is the ideal basis for obtaining detailed data and enabling first-class visualisations. Thanks to the large display, the vital functions can also be easily read from a distance. It is operated conveniently via touchscreen. Hot keys also provide quick access to the most important functions. The low power consumption and powerful battery make this monitor an extremely efficient solution.

- Multi-parameter display of respiratory rate, pulse rate, oxygen saturation, blood pressure (NIBP), ECG and temperature
- High-resolution 10.4" LED touchscreen with up to 7 curves
- Freely selectable alarm limits
- Mains and battery operation up to 4 hours
- Dimensions (in cm): W 32 x H 22 x D 16
- Weight: approx 3.5 kg

Incl. Li-Ion battery, NIBP cable with cuff, ECG cable with clamps, SpO<sub>2</sub> sensor with clips and temperature probe

321915

€ 1100,-

## LIFEVET 10C MULTIPARAMETER MONITORS

The LifeVet 10C monitors are modern, powerful patient monitors that are characterised by their high level of user-friendliness, reliable technology and extensive data storage. Thanks to the large display, the vital functions can also be read easily from a distance. It is operated conveniently via touchscreen. Hot keys also provide quick access to the most important functions.

- Multi-parameter display of respiratory rate, pulse rate, oxygen saturation, blood pressure (NIBP), ECG, temperature and capnography (EtCO<sub>2</sub>) in sidestream mode
- High-resolution 10" LED touchscreen with up to 8 curves
- Freely selectable alarm limits and 360° visible alarm display
- Mains and battery operation up to 4 hours
- Dimensions (in cm): W 27 x H 22 x D 17
- Weight: ≤ 4.0 kg

Incl. Li-Ion battery, NIBP cable with cuff, ECG cable with clamps, SpO<sub>2</sub> sensor with clips, temperature probe, CO<sub>2</sub> adapter, CO<sub>2</sub> cable and water trap

## EICKEMEYER® NARKOVET LIGHT ANAESTHETIC UNIT

The EICKEMEYER® NarkoVet LIGHT is a cost-effective mobile anaesthetic machine, using quality parts like the MSS Vaporiser. It includes breathing circuits and an anaesthetic gas filter.

- High accuracy Rotameter (0.1 – 5.0 l/min)
- EICKEMEYER® Isoflurane Vaporiser TEC 3
- Oxygen bypass (O<sub>2</sub> flush)
- Patient exit: Ø outside: 22 mm / Ø inside: 15 mm
- Ayre's T-Piece breathing circuit for patients under 7 kg
- Semi disposable Circle Circuit for patients over 7 kg including patient hose with Y-piece, 2.0 l rebreathing bag and APL pressure relief valve
- EickSorber anesthetic gas filter with holder and exhaust pipe
- Storage tray and hook for additional rebreathing bags
- Stable base with 5 castors (Ø 54 cm)
- Dimensions (in cm): H 142 x W 67 x D 54
- Weight: 14.5 kg

213071

€ 1400,-

### OxyVet IV Oxygen Concentrator

- Saving costs and effort: No oxygen bottle required, lower power consumption
- Simple operation thanks to the clear arrangement of the setting functions and monitoring information
- High patient safety through visual and acoustic alarms
- Noise level: ≤ 55 dbA
- Flow rate continuously adjustable from 0.5 – 5 l/min
- Output of up to 93 % oxygen (± 3 %)
- Dimensions (in cm): L 34 x W 37 x H 67
- Weight: 15.3 kg
- Incl. Bubble humidifier and O<sub>2</sub> hose
- 1 year warranty

213180

€ 650,-

### Starter Kit for NarkoVet LIGHT

This set provides the necessary accessories to perform anaesthesia on dogs and cats.

Complete Set, consisting of:

- Isoflurane Safety Key Filler
- Soda Lime Anaesthesia, 5 l, with colour indicator
- 2 Rebreathing Bags (1 and 3 l)
- 6 Anaesthesia Masks (size 1 – 6)
- EickTube Tracheal Tube Set with 23 tubes (2.0 – 10.0 mm)
- Laryngoscope – Basic

213079

€ 330,-

213180

213071

The EICKEMEYER® NarkoVet Anaesthetic Unit is now even more flexible: Can be set up as a desk, wall or stand model.

## Table mounted Model

- High accuracy Rotameter (0.1 – 5.0 l/min)
- EICKEMEYER® Isoflurane Vaporiser TEC 3
- Oxygen bypass (O<sub>2</sub> fl ush)
- System pressure gauge
- Infinitely adjustable pressure relief valve
- Soda Lime canister and accessories
- Suitable for small animals up to 80 kg
- Dimensions (in cm): L 32 x W 25 x H 51

213062

€ 2300,-

## NarkoVetAnaesthetic Starter Kit

Complete Set, consisting of:

- Isoflurane Safety Key Filler
- EickSorber Anaesthetic Gas Absorber
- Scavenging System Hose, 2 m, transparent
- 3 Soda Lime Anaesthesia, 5 l, with colour indicator
- 2 Rebreathing Bags (1 and 3 l)
- 6 Anaesthesia Masks (size 1 – 6)
- EickTube Tracheal Tube Set with 23 tubes (2.0 – 10.0 mm)
- Laryngoscope – Basic

213061

€ 330,-

## OxyVet III Oxygen Concentrator (5 l)

An oxygen concentrator draws in room air, separates the oxygen from other gases in the environment and delivers the oxygen at high concentrations.

- Flowrate: 0.5 to 5 l/min
- Oxygen concentration: 93 % ± 3 %
- Sound level: 40 dbA (50 Hz)
- Electrical requirements: 230 V / 50 Hz
- Power consumption: approx 290 watt @ 2 l/min and approx. 312 watt at 5 l/min
- Dimensions (in cm): L 34 x W 30.4 x H 62
- Weight: 16.3 kg
- 3 Year Warranty

## INFUSOVET SP SYRINGE DRIVER / PUMP

The EICKEMEYER® InfusoVet SP is a highly accurate and reliable syringe pump. The clearly arranged, colour coded buttons make it particularly easy to use.

- 2.5" backlit LCD display
- Compatible with standard 5, 10, 20, 30, 50 and 60 ml syringes
- Safety when injecting: precise control of flow rate and injection volume
- High patient safety through acoustic alarms
- Quick start function
- With clamp for IV pole

### Technical specifications

- Mains and battery operation, battery life up to 6 hours
- Splash proof (IP34)
- Dimensions (in cm): L 33 x D 12.6 x H 11
- Weight: approx 1.8 kg

402095

€ 580,-

## EICKEMEYER® I.V. FLUID WARMER

For warming up all intravenously administered liquids.  
LED display with temperature display.  
Temperature control from 35 to 42 °C in 0.1 °C steps.  
Warm-up time: less than 2 min.  
Dimensions (in cm): L 18 x W 7 x D 3.5.  
Weight: 200 g (without mounting clamp).

402092

€ 199,-

## I.V. GIVING SET

- Pressure / gravity infusion.
- Individually packaged sterile sets.
- DEHP & Latex free.
- Compatible with infusion pump InfusoVet, InfusoVet Easy II, InfusoVet Connect and InfusoVet IP.

**Please note:** If you use a pump that is not from EICKEMEYER®, your pump for this infusion set must be calibrated accordingly.

Pack of 100 pieces.

Extension 050166 is compatible with this giving set.

402071

€ 95,-

## INFUSOVET CONNECT INFUSION PUMP

www.vetpood.ee

- 4.3" color touchscreen for easy operation
- Adjustable audible and visual alarms
- Suitable for bloods
- Flow rate: 0.1 – 2,000 ml/h
- Bolus rate: 0.1 – 2,000 ml/h (automatic and manual)
- Occlusion level: 5 levels selectable (50 – 900 mmHg)
- Mains and battery powered (up to 10 h)
- With clamp for IV pole and cage holder
- For EICKEMEYER® infusion sets (item no. 402071)
- Dimensions (in cm): W 13.8 x H 13.2 x D 9
- Weight: 1.5 kg

402090

€ 699,-

## INFUSOVET IP INFUSION PUMP

The EICKEMEYER® InfusoVet IP is a programmable infusion pump that combines safety, performance and reliability. The pump is easy to use and the infusion sets are easy to insert.

- 2.5" backlit LCD display
- User-friendly through simple programming
- High level of patient safety thanks to acoustic and visual alarms (in the event of air bubbles, constipation, empty battery, end of infusion)
- Also suitable for blood transfusions
- With clamp for IV pole
- For EICKEMEYER® infusion lines (item no. 402071)

### Technical specifications

- Flow rate: 0.1 – 1,500 ml/h
- Volume limit: 1 – 9,999 ml
- Bolus rate: 0.2 – 600 ml/h (manual)
- Occlusion level: 3 levels selectable (150 – 900 mmHg)
- Mains and battery operation, battery life up to 4 hours
- Splash water protection according to IP34
- Dimensions (in cm): W 15 x H 25 x D 9
- Weight: < 1.45 kg

402085

€ 650,-

## X-BASE OPERATING TABLE

The EICKEMEYER® X-Base Operating Table is our most popular surgery table. All components are of the highest quality, making this table a great investment in the future of your practice.

- X-Base with 4 individually adjustable feet
- Provides best possible legroom and stability
- Good working posture whether sitting or standing
- Slim lift column made of aluminium, pump hydraulic or mains operated
- Self-contained, maintenance-free lift column
- Height adjustable from 72 – 112 cm
- Unidirectional 90° tilt mechanism, one hand control
- Stainless steel top with rounded, anti-drip edges and drain hole
- Two tabletop widths: 50 cm and 60 cm
- Optional heated tabletop
- Various colour options available

## LOW LIFT SCISSOR TABLE II

The EICKEMEYER® Low Lift Scissor Table II is perfect for lifting and transporting larger patients without unnecessary handling and movement. The basic stationary table is available in eight different colors and the additional options available make this table a real all-rounder for your practice.

- Ideal for examination, prep, dental treatment and procedures
- Minimum height of 28 cm allows large dogs to walk onto the table
- Maximum height of 105 cm allows you to examine smaller patients without having to hunch and lean forward
- All parts made from high quality German stainless steel
- Smooth, polished tabletop (60 x 130 cm) with rounded corners, anti-drip edges and a drain hole
- Silent electric operation via foot pedal
- Includes power supply and tie down cleats

## SCORE® AMAZONE / JUMPER STOOLS

The ever so popular SCORE® treatment stools now come in fresh colours – real eye-catchers for your practice!

- Comfortable, cushioned seat
- Easily washable synthetic leather
- Smooth running double castors
- Aluminium base diameter: 54 cm

Each

€ 325,-

### SCORE® JUMPER / AMAZONE Balance Saddle Stools

The uniquely adjustable Balance mechanism from SCORE® ensures that the saddle moves subtly along with your movements. These 'micro' movements of your pelvis ensure that muscle groups and intervertebral discs are not constantly under severe static strain. This prevents pain, helps you maintain your working posture longer and exercises your core muscles. The degree of movement can be set by your own preference and adjusted by rotating the ring.

## DR. MACH LED 120 / 120F EXAMINATION AND THEATRE LIGHTS

DR. MACH from Germany has been setting the standards in medical illumination technology for decades. The new generation of lights with LED technology continues this tradition and supports veterinary professionals with superior technology and design. The biggest advantages of LED technology is a guaranteed minimum life-span of 50,000 hours, its energy efficiency and almost non-existent heat production.

- Colour rendering index: Ra  $\geq$  95
- Electric dimmer: 50 – 100 %
- Light head diameter: 29 cm
- Number of LEDs: 12
- Power consumption: 18 W

## DR. MACH LED 300DF THEATRE LIGHTS

The latest addition to the range of the quality manufacturer DR. MACH impresses with the highest light intensity at an extremely attractive price. The light beams of the three LED clusters can be bundled using the sterilisable handle and, depending on the size of the wound area, also focused.

- 160,000 lux at 1 m working distance
- Focusable light field: 17 – 27 cm
- Colour rendering index:  $Ra \geq 95$
- Height adjustment: 118 cm
- Working area: 70 – 140 cm
- Number of LEDs: 36
- Lifespan of the LEDs: 60,000 hours
- Electronic brightness control on the luminaire body
- Including power supply

## MAGIC 500 PLUS PORTABLE ULTRASOUND UNIT

The MAGIC 500 PLUS sets a new standard of mobility for pregnancy testing in the field. With only 1.1 kg and an integrated rechargeable battery, it ensures maximum comfort and user friendliness.

### Features

- Long service life: due to the long battery life of the battery supplied, unforeseen extended scanning sessions are not a problem
- Efficient workflow: Performing measurements on stored images ensures an efficient examination process
- Via a WiFi connection images and videos can be transmitted wirelessly to external devices (PC, laptop, tablet, smartphone) as well as monitors
- Higher diagnostic reliability with Cine Memory (256 frames)
- Individually adjustable ultrasound image
- Protection by splash-proof venting and membrane keypad
- Mounting rings and straps for easy hanging around the neck

### Areas Of application

- Pregnancy examinations in cattle and horses
- Adjustment aids for optimal work
- Standard measurements and vet pregnancy calculation
- Anti-reflective ultrasound image individually adjustable
- Measurements below 1 mm possible (fat layer thickness measurement)
- Back fat and loin thickness calculation

### Technical specifications

- 15 cm LED Monitor
- Black-and-white system
- Images and video clips can be saved on the device
- Incl. a switchable, changeable transducer 6.5 MHz, linear rectal, frequency switching of: 4.5 / 5.5 / 6.5 / 7.5 MHz
- Incl. a glove for the left hand (right glove can be reordered)
- Incl. Carrying case
- Integrated battery with up to 5 hours runtime
- Dimensions (in cm): W 16 x H 16 x D 7
- Weight: 1.1 kg

303790

€ 3300,-

## MAGIC 3000 PLUS PORTABLE ULTRASOUND UNIT

www.vetpood.ee

### Unbeatable value for money!

The MAGIC 3000 PLUS impresses with many new functions and features. Advanced technologies including Power Doppler (PDI) help evaluate blood flow in different clinical conditions.

- High-resolution 12.1" LCD Screen, tiltable
- Cine mode with memory function (5 sec.)
- Various measurements including
- pregnancy calculation
- iStation™, iClear™, iZoom™, iBeam™ and iTouch™
- Second probe connection for quick probe swap
- Internal SSD storage and two USB ports
- Dimensions (in cm): W 29 x H 35 x D 17
- Lightweight: only 5.6 kg

## MAGIC 6000 PLUS PORTABLE ULTRASOUND UNIT

### A new dimension in image quality

The MAGIC 6000 PLUS not only opens a new dimension of image quality in small animal abdominal sonography, the device can also be used in equine gynaecology and orthopaedics. With a powerful cine mode, you can always keep an overview even with restless patients under difficult conditions.

- High-resolution 15" display, tiltable
- Cine mode with memory function (5 sec.)
- PW and Power Doppler (PDI) with "Auto Trace"
- Optional Colour Doppler Upgrade (30374001)
- iStation™, iClear™, iZoom™, iBeam™, iTouch™ & iScape™
- Various application-specific measurements for abdomen and gynaecology including pregnancy calculation
- Second probe connection for quick probe swap
- Large internal SSD storage and two USB ports
- Dimensions (in cm): W 36 x H 36 x D 15
- Weight: 8.1 kg

**Ultrasound Table Mat with Cutout**  
For Ultrasound Table (item no. 303976)

Velcro straps for a secure fit

**30397602**

€ 160,-

The Pawsitioner is designed to secure patients for surgery and hands-free diagnostic imaging. It eliminates the need for tie-downs and makes it easy to clip and scrub patients in the prep room then transport them to surgery without having to re-position. The Pawsitioner is also ideal for hands-free radiographic positioning, including V-D, left or right lateral, V-D pelvis for OFA evaluation, rostral-caudal skull views and much more without re-positioning the patient for each radiograph. The cradle may also be used to hold patients for laparoscopy, CT, MRI, myelography and ultrasonography.

### Complete Set

Consisting of 5 sizes and wall mount for space-saving storage

## ANIMAL STRETCHER TROLLEY

We get a lot of positive feedback regarding this Animal Stretcher Trolley. It will quickly become essential for transporting patients within your practice, and you will wonder how you ever managed without it.

This mobile trolley has four lockable castors so patients can be transported and secured easily.

- 4 lockable castors
- Aluminium frame with a washable nylon cover
- Maximum load capacity: 60 kg
- Dimensions (in cm): L 120 x W 52 x H 80

605998

€ 499,-

## PROFIDENT PLUS DENTAL UNIT

www.vetpood.ee

The Profident PLUS is the result of many years of experience. It offers a wide range of applications for both, general practitioners and dental specialists. It is characterised by its modern design combined with high mobility. The stand is adjustable in height and all handpieces are arranged within easy reach of the operator. When a handpiece is removed from its holder, the Profident PLUS automatically supplies air and water to it.

### Starter Kit

Complete set, consisting of:

- 1x Bur Kit for Contra Angle
- 1x Prophylaxis Cups
- 1x Polishing Paste
- 1x Cleaning Brush

EXP174004

€ 240,-

### High Speed Turbine (300,000 rpm)

- Push button burr change for friction grip burrs (FG)
- Variable burr water cooling facility
- With LED Illumination

### Low Speed Air Motor (20,000 rpm) with Straight Handpiece

- For long straight shank burrs (HP), diamond discs and prophylaxis heads
- High torque, forward and reverse rotation
- Optional water cooling facility (item no. 174022)

### Built-in Dental Scaler

- Handpiece with LED Illumination
- Includes 5 scaling tips

### 3 in 1 Syringe

- Precise finger tip control of water, mist or dry air
- Water connection to connect external dental scaler (e. g. item no. 176870)

### Dental Unit Air Compressor

- Powerful (340 watt)
- Quiet, 40 dB (A) (as a fan)
- Low maintenance

### Micro Oil Filter

- Reduces the oil content in the compressed air down to 0.01 %
- Helps extend the life of handpieces

174001

€ 3700,-

## MOBILE DENTAL CART

### Turns every table into a dental treatment table!

With the Mobile Dental Cart from EICKEMEYER®, every operating or treatment table becomes an ergonomic dental treatment table.

- For attachment to operating and treatment tables
- Ergonomic, curved dental tray with grate
- Easily removable tray for cleaning
- Made of stainless steel
- With 4 lockable smooth running castors
- Height adjustable from 75 – 100 cm
- Tray size (in cm): W 50 x D 35

605105

€ 340,-

## COCOON SPRAY DENTAL UNIT

Its compact and robust design makes this unit ideal for the majority of all routine veterinary dental procedures.

The dental scaler is a state-of-the-art Piezo system, it offers superb efficiency to remove even the most stubborn tartar with ease.

Water cooled drilling means you can run faster speeds without the risk of thermal tissue damage.

- Infinitely variable power control
- Self-regulated frequency: 27 to 32 kHz
- Driver type: piezoelectric
- Oscillation form: linear
- For straight and angled dental handpieces
- With water cooling
- High torque to ensure maximum precision
- Self-regulated speed up to 40,000 rpm
- Handpieces not included

176860

€ 2384,-

### Low Speed Dental Handpiece – Contra angle (RA)

- With water cooling
- Compatible with Cocoon Dental Unit (176860)
- For polishing please order: Polishing Cups RA (176787)

€ 220,-

176860

## EICKSONIC II DENTAL SCALER

- With illuminated LED handpiece (removable)
- High performance (28 kHz)
- With modern Piezo technologies
- Suction power control
- Water connection hose with connector for 3/8" water line
- Very easy to use
- Compact, durable design
- Best price-performance ratio

176865

€ 299,-

- Compact dental micro motor for straight and angled dental handpieces
- Powerful and durable, quiet operation
- Infinitely variable speed up to 35,000 rpm
- Forward and reverse movement
- Choice of hand or foot switch control
- Handpieces not included

174028

€ 400,-

## DENTAL STARTER KIT FOR SMALL ANIMALS

The most important equipment for Dental Unit Polisher / Drill Unit II (174028) and Dental Unit EickSonic Plus LED (176880) together in one set.

Complete set, consisting of:

- Low Speed Dental Handpiece – Contra Angle (RA) (174026)
- Low Speed Dental Handpiece – Straight (HP) (174027)
- Dental Burr Set (RA) (174105)
- Disposable polishing heads (HP) (174066)
- EICKEMEYER® Prophy Paste (176782)
- Dental Handpiece Lubricant Oil (174010)
- Dental Handpiece Air Motor / Turbine Adapter (17401150)
- Dental Handpiece Low Speed E-Type Adapter (17401155)

# DENTANOMIC DENTAL INSTRUMENTS

## Easier, safer & faster dental surgery

DENTANOMIC instruments are premium surgical tools with superb tempered and hardened modular blades making dental extraction in dogs and cats easier, safer and faster.

- Blades are made from top quality, hardened stainless steel and cut much better than conventional instruments
- Unique modular design allows easy blade replacement when blades are blunt or damaged
- Ergonomic handle design promotes safe palm grip, only minimal finger force is required to stabilize the cutting edge
- Standard handles are perfectly balanced and sized for surgeons with hands up to 7.5 glove size

## WARMING SYSTEM FOR SMALL ANIMALS

In clinical situations, animals cannot do without the supply and regulation of external heat. Since the animal's natural thermoregulation is switched off by the anaesthesia, its core body temperature must be maintained in the normothermic range. This warming system quietly delivers forced air through a low-pressure blanket that is specifically designed to evenly deliver diffused warm air over the surface of the patient, helping to prevent the onset of hypothermia.

- Safe and effective management of patient body temperature
- Optimal performance through uniform heat distribution
- Extremely powerful and quiet
- Only 30 seconds to warm up
- Temperature set points: 32 °C, 38 °C, 43 °C or ambient air
- Multiple alarm options for patient safety
- Pole clamp for secure fixation
- Compact dimensions (in cm): L 16 x W 35 x H 40
- Includes: 10 disposable warming mats

648090

€ 990,-

## REUSABLE WARMING MATS

These reusable Warming Mats are placed under the patient and – thanks to their unique 3D textile structure – ensure optimal heat supply. The mats fit the body's contour perfectly, making temperature control possible in any position and without interruption at the contact points.

Warm air is distributed evenly under the patient  
Pressure relieving positioning  
Free operating field  
Reusable and washable at 60 °C  
Compatible with most air warming devices  
Made in Germany

Small, 50 x 60

## EICKLOXX MICRO OSTEOSYNTHESIS SYSTEM

www.vetpood.ee

The EickLoxx Micro osteosynthesis system was specially developed for the treatment of fractures in very small dogs and cats.

The angle-stable screws have a diameter of 1.2 mm.

In addition, various 1.0 mm thick plates are available in different configurations.

This opens up the following indication areas, especially for dogs and cats weighing less than 3 kg as well as puppies: radius/ulna fractures, metatarsal fractures, jaw, pelvic and scapula fractures, in addition to arthrodesis and much more.

The EickLoxx Micro osteosynthesis system joins the existing EickLoxx osteosynthesis system for dogs and cats and supplements this in the increasingly important lowest weight category.

Complete set, consisting of:

- EickLoxx Micro Tray
- Drill Guide Funnel System 1.2
- Plate Screw Holding Forceps
- Twist Drill with AO Quick Coupling (Ø 1.0 mm)
- Screwdriver Blade (Torx 6)
- Screwdriver Handle
- Depth Gauge
- EickLoxx Micro Bone Plate, 7 hole, System 1.0
- EickLoxx Micro Bone Plate, 8 hole, System 1.0
- EickLoxx Micro Bone Plate, 20 hole, System 1.0
- EickLoxx Micro Bone Plate, L-plate, 9 hole, System 1.0
- EickLoxx Micro Bone Plate, T-plate, 10 hole, System 1.0
- EickLoxx Micro Bone Plate, Y-plate, 12 hole, System 1.0
- EickLoxx Micro Bone Plate, Y-plate, 13 hole, System 1.0
- EickLoxx Micro Bone Plate, 4x2 hole, System 1.0
- EickLoxx Micro Bone Plate, 2x2x2 hole, System 1.0
- 35 Titanium Locking Screws Ø 1.2 mm, magenta (from 4 – 10 mm)

197400

€ 2200,-

UUS

# EICKLOXX SMALL OSTEOSYNTHESIS SYSTEM

**The EickLoxx Small is a polyaxial locking kit for dogs and cats up to 15 kg.**

The system distinguishes itself through the polyaxial placement of the custom-fit screws and combines the advantages of a locking plate system with polyaxial screw placement in  $\pm 15^\circ$  longitudinal and transverse pivoting.

Compared to conventional osteosynthesis systems, the use of locking systems (internal fixation) such as the EickLoxx Small facilitates faster healing of fractures and improved implant strength. It is for this reason that the removal of plates and screws is rarely indicated.

The biologically advantageous titanium plates are available in three sizes and can be cut to the desired length and bent in three planes. Specially designed tools are included to perform this. Titanium also reduces artefacts in post-operative imaging.

EickLoxx Small is a modular system. All implants and instruments are made in Germany using only the highest quality materials.

Complete set, consisting of:

- EickLoxx Small Instrument Tray
- EickLoxx Small Implant Tray
- EickLoxx Small Screw Rack
- TAURUS Plates and Wire Cutting Pliers
- Plate Bending Pliers with Rollers
- EickLoxx Bending Levers (Pair)
- 3 Twist Drills with AO Quick Coupling ( $\varnothing$  1.4 mm,  $\varnothing$  1.8 mm &  $\varnothing$  2.0 mm)
- 2 Screwdriver Blades (Torx 6 and 10)
- 2 Drill Guide Funnel Systems (1.7 / 2.3 and 2.7 / 3.5)
- Plate Screw Holding Forceps
- Silicone Screwdriver Handle
- 4 Plate Positioning Pins
- Depth Gauge
- EickLoxx Small Bone Plate, 46 hole, System 1.7 / 2.3, Dimensions (in mm): L 230 x W 5.0 x H 2.0
- EickLoxx Small Bone Plate, 41 hole, System 1.7 / 2.3, Dimensions (in mm): L 225 x W 6.5 x H 2.4
- EickLoxx Small Bone Plate, 28 hole, System 2.7, Dimensions (in mm): L 224 x W 8.0 x H 2.7
- 28 Titanium Locking Screws  $\varnothing$  1.7, silver (from 8 – 20 mm)
- 28 Titanium Locking Screws  $\varnothing$  2.3, gold (from 8 – 20 mm)
- 44 Titanium Locking Screws  $\varnothing$  2.7, light blue (from 10 – 30 mm)
- Container, dimensions (in mm): L 312 x W 183 x H 122

**185500**

**€ 3300,-**

# EICKLOXX LARGE OSTEOSYNTHESIS SYSTEM

www.vetpood.ee

## The universal polyaxial osteosynthesis system for small animals

The newly developed EickLoxx Large is a polyaxial locking system for dogs with a weight of approx. 15 to 45 kg.

Just like the EickLoxx Small, the system is characterised by a polyaxial placement of the precisely shaped screws and therefore combines the advantages of locking systems and the possibility of placing screws at an angle of up to  $\pm 15^\circ$ . Like the EickLoxx Small, the EickLoxx Large offers the advantage of rapid fracture healing with improved implant strength. It is for this reason that the removal of plates and screws is rarely indicated. The biologically advantageous titanium S-shaped plates are available in eight different sizes. Thanks to special tools, the plates can be bent on all three planes. The long 12- and 14-hole plates as well as the long 34 to 40 mm screws ( $\varnothing 2.7 / 3.5 / 4.0$ ) are not included in the basic set and can be added if required. Both plates can be integrated into the implant tray. There is space in the implant tray for the long plates and capacity for the module for the long screws in the instrument tray.

Complete set, consisting of:

- EickLoxx Large Instrument Tray
- EickLoxx Large Implant Tray
- EickLoxx Large Screw Rack
- 2 EickLoxx Large bone plate modules
- EickLoxx Bending Levers (Pair)
- 3 Twist Drills with AO Quick Coupling ( $\varnothing 2.0$  mm,  $\varnothing 2.5$  mm and  $\varnothing 2.9$  mm)
- Screwdriver Blade (Torx 10)
- Drill Guide Funnel System 2.7 / 3.5 / 4.0
- Plate Screw Holding Forceps
- Silicone Screwdriver Handle
- 4 Plates Positioning Pins
- Depth Gauge
- 6 EickLoxx Large Bone Plates, 4.0 mm, gold (6 – 10 holes)
  - 6 EickLoxx Large Bone Plates, 4.5 mm, light blue (6 – 10 holes)
  - 36 Titanium Locking Screws,  $\varnothing 2.7$  mm, light blue (from 10 – 32 mm)
  - 36 Titanium Locking Screws,  $\varnothing 3.5$  mm, magenta (from 10 – 32 mm)
  - 36 Titanium Locking Screws  $\varnothing 4.0$  mm, blue (from 10 – 32 mm)
- Container, dimensions (in mm):  
L 312 x W 183 x H 122

€ 3300,-

# ZLIG – NEW TECHNIQUE FOR CRUCIATE LIGAMENT REPLACEMENT (CRCL)

## Zlig – the history

The tear of the anterior cruciate ligament is still one of the most common orthopaedic diseases in dogs. The path of the many surgical methods developed for this vary from intracapsular and extracapsular techniques to modern corrective osteotomies that alter the geometry of the affected knee joint. With the development of new materials in medical technology, it is now possible to replace the cranial cruciate ligament in an anatomically correct manner, instead of changing the forces acting on the joint. After a long period of preparatory work by the French Dr. Jacques-Phillipe Laboureau, a suitable synthetic ligament is now available for the intra-articular cruciate ligament replacement in small animals. Together with the instrumentation developed by EICKEMEYER®, this new technique for cruciate ligament replacement can now be performed.

## Zlig – the implant

The Zlig consists of ultra-high-molecular polyethylene with the special feature that the woven structure of the implant is interrupted intra-articularly by “free fibres”. Free parallel fibres reduce fatigue and also encourage the ingrowth of fibroblasts and collagen. Each implant is delivered in a sterile packed sleeve, making it easier to handle the implant before it is inserted into the joint. A selection of sizes with different resistances and fibre lengths are available to fit different patient sizes.

## Zlig – the technology

In this technique, an artificial ligament is used as a total replacement for the anterior cruciate ligament using tunnel-tunnel-technique. The ligament is fixed in the tibia and Os femoris using specially developed cannulated interference screws in drill channels. The screws are guided parallel to the ligament using a guiding wire to avoid deviations. The technology does not cause irreversible damage and the results are reproducible thanks to a quick learning curve. Another great advantage of the technique is the fact that patients can put weight on the hind leg immediately after the operation without any risks.

# Zlig – NEW TECHNIQUE FOR CRUCIATE LIGAMENT REPLACEMENT (CRCL)

## Zlig – the instrumentation

A small and inexpensive set of instruments is required to perform this new and innovative cruciate ligament surgery method. The threads of the specially developed titanium interference screws are round so they do not cause any damage to the fibres of the Zlig.

## Zlig Instrument and Screw Set

Complete set, consisting of:

- Zlig Instrument Tray with screw module for interference screws
- 5 Twist Drills, cannulated, with round shank (Ø 2.5 / 3.0 / 3.6 / 4.2 & 5.0 mm)
- 1 Twist Drill, not cannulated, with round shank (Ø 4.0 mm)
- Hexagon KIRSCHNER Wire
- Attachment for hexagon KIRSCHNER Wire, HEX 2.5, AO coupling
- Screwdriver Handle made of silicone, HEX 2.9, AO coupling
- 2 Screwdriver Blades, cannulated (HEX 2.0 & 2.5)
- 4 KIRSCHNER Wires, trocar / trocar (Ø 1.0 & 1.8 mm)
- 4 KIRSCHNER Wires, blunt / blunt (Ø 1.0 & 1.8 mm)
- 2 Tubes for wire loops, cannulated (Ø 2.5 & 3.5 mm)
- 2 Wire Loops
- 4 Titanium Interference Screws, cannulated, Ø 3.0, blue (8 mm)
- 12 Titanium Interference Screws, cannulated, Ø 3.5, light blue (8, 10, 13 mm)
- 12 Titanium Interference Screws, cannulated, Ø 4.0, magenta (8, 10, 13 mm)
- 16 Titanium Interference Screws, cannulated, Ø 4.5, gold (10, 15, 20, 25 mm)

# ORTHOVET PRO BATTERY POWERED DRILL SYSTEM

## The ideal tool for small animal osteosynthesis

The OrthoVet PRO is a modular, battery driven drill system designed for small animal osteosynthesis. The modular system consists of a handpiece and four attachments, which can be changed intraoperatively in just a few seconds with a keyless quick coupling.

The handpiece, the quick release AO Chuck and the Jacobs Chuck are cannulated. Thus, cannulated screws or drills can also be tracked over long guide wires in stages, without the guide wire having to be shortened. The oscillating saw has a fivefold adjustable, variable fixation of the saw blade and allows the surgeon an optimised view of the surgical field. The AO quick coupling completes the system and makes the OrthoVet PRO a real all-rounder.

The handpiece and attachments can be sterilised / autoclaved. The Li-Ion Battery is not autoclavable and is inserted into the handpiece by means of special holder. Continuous operation is possible in clockwise and counterclockwise motion, as well as in oscillation with the saw attachment.

- 4 attachments: Jacobs Drill Chuck, Quick Release AO Chuck, Quick Release Chuck for KIRSCHNER wires, Oscillating Saw with Saw Blades
- Fully Cannulated Handpiece
- Autoclavable
- Includes 2 Li-Ion Batteries with Charger and Transport Case

## Technical specifications

- Infinitely variable speed: 0 – 1,200 rpm
- Oscillation mode: 0 – 16,000 ocs/min
- Battery type: Li-Ion
- Battery charging time: 180 min
- Weight (includes Battery): 933 g

195000

## DRAGONFLY CORDLESS DRILL

www.vetpood.ee

### The powerful and intuitively operated motor system for small animal osteosynthesis

The DRAGONFLY is a modular cordless drill system with 4 attachments for screwing, milling, drilling and cutting as required. Thanks to the quick coupling, the attachments can be changed intraoperatively. The handpiece itself impresses with its narrow handle design and an intuitive one-handed mechanism.

The AO attachment is cannulated, same as is the keyless chuck for KIRSCHNER drilled wires / STEINMANN nails and the Jacobs drill chuck. Both are equipped with an adjustable clamping range of up to 4.0 mm. These 3 attachments can be operated stepless in left / right rotation and also in oscillation mode at speeds from 0 – 1,350 rpm.

The DRAGONFLY is completed by attachment no. 4: the oscillating saw. It is equipped with a power of 0 – 14,000 osc/min and allows the saw blade to be used in 4 different positions. Handpiece and attachments can be autoclaved. The core, however, is the removable, non-autoclavable drive unit: This includes the control unit, the battery, the electronics and the motor control electronics and, together with the Li-Ion technology, guarantees a long service life and service life. Thus, the DRAGONFLY offers you a performance that you previously only knew from compressed air or cable-electric systems. All components are designed and manufactured in Germany.

#### Technical specifications

Infinitely variable speed: 0 – 1,350 rpm.

Oscillation cutting mode: 0 – 14,000 osc/min.

Battery type: Li-Ion.

Scope of delivery: DRAGONFLY handpiece incl. 4 attachments (AO attachment, keyless chuck for KIRSCHNER bone wires / STEINMANN nails, Jacobs drill chuck, oscillating saw), 4 saw blades with STRYKER attachment, drive unit, sterile funnel, charger and carrying case

## ICARE® TONOVET PLUS TONOMETER

The Icare® TONOVET Plus is easy to use. It features an advanced user interface with a clear, large display. Red / green positioning lights help to find the correct angle and aim at the middle of the cornea. The automatic measuring sequence lets you choose between taking single readings or taking all 6 measurements with one press of the button.

- Quick, painless and accurate procedure
- Easy to use and requires no calibration
- Assisting positioning lights
- Large and easy to read colour display
- Dimensions (in mm): L 215 x W 24 – 29 x D 35 – 95
- Weight: 230 g (incl. batteries)
- Includes: Transport Case, 100 Probes, 4x AA batteries

Application

## ICARE® TONOVET TONOMETER

The TONOVET is based on a rebound measuring principle, in which a light probe is used to make momentary, gentle contact with the cornea. The device is easy to use and the measurement is barely noticed by the animal and often does not even cause corneal reflex.

Eye pressure should be measured from:

- Young patients to establish baseline readings
- Patients older than 6 to 7 years
- Patients predisposed to glaucoma (42 canine breeds)
- Ocular examination patients
- Head or eye trauma patients
- The treatment of the patient is well tolerated with the absence of local anesthesia
- Quick, painless and accurate procedure
- Self-calibrating
- Portable as it is powered by batteries

### Technical specifications

- Display range: 0 – 99 mmHg
- Power: 4x AA batteries included
- Dimensions (in cm): L 3.2 x W 24 x H 8
- Weight: 250 g (including batteries)
- Includes 100 TONOVET probes

## KOWA SL-19 PORTABLE SLIT LAMP

www.vetpood.ee

### Now more ergonomic and even lighter!

With its rounded shape and curved handle design, the new KOWA SL-19 Slit Lamp is even more ergonomic. Furthermore, the weight of the hand-held unit has been significantly reduced.

- New LED backlight that can be used simultaneously with the slit light
- New LED blue light illumination for fluorescence observation
- Light intensity can be adjusted with one hand
- Infinitely adjustable slit length (1.5 – 12 mm)
- Longer operating time: up to 6 hours at maximum intensity
- Available in 5 colors: white, black, blue, green and pink

### Technical specifications

- Magnification: 10x and 16x
- Working distance: about 80 mm at 16x magnification, about 100 mm at 10x magnification
- Effective field of view: Ø 10 mm at 16x magnification, Ø 15 mm at 10x magnification
- Slit width: Ø 0.1, Ø 0.2, Ø 0.8 mm
- Spot size: Ø 1, Ø 5, Ø 12 mm (slit length continuously adjustable from 1.5 – 12 mm)
- Light intensity: 200 – 20,000 lux (continuously adjustable)
- Power supply: 3x AA batteries (DC 4.8 – 6.4 V)
- Dimensions (in mm): W 197 x D 107 x H 238
- Weight (without batteries): only 620 g

173690

3600,–

## RETEVET™ PORTABLE ERG

The RETevet™ portable ERG offers an intuitive interface that allows veterinary ophthalmologists to perform electroretinograms (ERGs) to measure the retinal function of animals.

- Small, portable and battery powered
- Intuitive user interface
- Real-time results
- All flashes electronically controlled
- Easy USB connection to any PC
- Comprehensive reports in PDF formats
- Anaesthesia is optional (based on the patient)

### Technical specifications

- RGB LED technology
- Dimensions (in cm): W 10.5 x H 15.5
- Weight: 240 g
- Includes: RETevet™ Device, Docking Station, 6 Jet Electrodes, 10 Needle Electrodes, Dust Cover, 3-Plug Electrode Lead, USB Cable, Power Adapter.

173610

€ 7800,–

## ALGERBRUSH II

The AlgerBrush II is a battery powered, handheld, low torque motorised burr. It has been designed to remove foreign bodies from the cornea or sclera of patients.

The burr in this rotary instrument is used as a "brush" rather than a drill and the foreign bodies are thus "brushed" from the eye leaving a smooth surface, which in turn heals much faster than with other instruments that could be used for this purpose.

According to the paper "Veterinary Ophthalmology" ([2013] 16, 2, [83 – 88]), it has been successfully used to treat spontaneous corneal epithelial defects (SCCEDs) in dogs in combination with a bandage contact lens.

### Includes

## BAUSCH & LOMB PUREVISION® 2 BANDAGE CONTACT LENSES

Contact bandage lenses act as a protective shield on the cornea. They permit corneal repair and improve patient comfort by preventing contact between damaged cornea and eyelids.

- High definition optics offers a clear and sharp view
- Excellent stabilisation
- Comfortable contact lens wear for up to 30 days and nights
- Ensures an optimal supply of oxygen to the cornea and makes eyes look clear
- Packaging: 6 lenses per box

## HEINE OMEGA 600 INDIRECT OPHTHALMOSCOPE

www.vetpood.ee

### Discover more. With less weight.

Lighter. Brighter. Better. HEINE kept the best and perfected the rest. Highly comfortable, the HEINE OMEGA 600 delivers a new class of technological innovation, along with the new and unique visionBOOST for significantly better diagnostic even in dense cataracts.

- Most precise diagnostic, up to the far retinal periphery
- Up to 20 % better view in media opacities with visionBOOST
- Lightest High-End Indirect Ophthalmoscope worldwide
- Long-lasting investment due to its robust design
- Easy disinfection thanks to smoothSURFACE

### Most precise diagnostic, up to the far retinal periphery

- Significantly better diagnostic due to unique visionBOOST
- Sharpest fundus image due to superior glass optics
- Brightest fundus image with true colour rendering thanks to our unique LEDHQ – now in even more natural colours
- Best 3D imaging due to our unique Stereoscopic Adjustment
- Technology in dilated and undilated pupils

## HEINE DIAGNOSTIC SET

Absolute precision is the basic requirement to ensure the creation of a high-quality product. At HEINE this principle applies to the entire production process.

Complete set, consisting of:

### NT 300 Double Charger (302550)

Automatic charging process and overcharge protection.

Includes two NT 3.5 V Battery Handles including batteries (2x 302535).

With short-circuit protection and a continuous ceramic brightness control.

### BETA 200 Direct Ophthalmoscope (301135)

A spherical optics eliminate reflexes and guarantee a full view is even with small pupils.

Handle not included.

### Slit Illumination Otoscope Head (300035)

Homogeneous light and a swivel lens with 1.6x magnification.

Scratch-resistant swivel lens with 1.6x magnification.

Light 3.5 V halogen light, Fibre Optic illumination for bright and homogeneous light.

Wide Slot for ease of use when working with catheters, foreign body forceps etc.

For mounting on HEINE BETA handles

Replacement lamp can be ordered through item no. 300038

### Otoscope Specula

- High quality chrome plated metal construction, which is easy to clean, disinfect and sterilize
- Metal Speculum, 4x 57 mm (300357)
- Metal Speculum, 6x 65 mm (300365)
- Metal Speculum, 7x 90 mm (300390)

## HEINE® LED LOUPELIGHT 2 WITH 2.5X BINOCULAR LOUPES

### Brighter. Lighter. Improved functionality.

LED in HQ – the new standard in LED lighting delivers homogeneity and bright light with natural colour rendering for a precise diagnosis. The combination of light and magnification provides optimal results.

#### HEINE® LED LoupeLight 2

- Illumination: 55,000 lux
- Colour temperature: 4,000 Kelvin
- Adjustable viewing angle ensures a coaxial, shadow-free image
- Replaceable connecting cable, 1.6 m
- Including HEINE® mPack mini and USB plug-in power supply

Operating time ~ 9 hours, at full power ~ 4 hours

## EICKVIEW PORTABLE LED VIDEO ENDOSCOPES

Due to their extremely compact dimensions, the EickView LED Video Endoscopes are the perfect solution for broncho-, gastro-, rhino-, tracheo, uretero- and vaginoscopy in dogs and cats and for the examination of the upper respiratory tract in horses. The devices work independently, as the powerful LED light source and the high resolution camera of the stand-alone systems are integrated in the distal end of the endoscopes. In addition, the folding 3.5" monitor allows both direct video and image playback as well as storage via SD card. Furthermore the EickView LED Video Endoscopes can be connected to a separate monitor.

Folding 3.5" monitor for video and picture playback

Recording and archiving on integrated SD card

You can now combine the new EickView HD Video Endoscope System according to your wishes and requirements.

## EickView HD Video Processor

The EickView HD Video Processor is the central hub of your video endoscope system. The powerful LED light source enables optimal illumination in any position. Various settings on the video processor allow you to adapt the image quality to your needs. The new HbE mode enables an improved display of vessels. Still images can easily be saved directly to a USB storage medium. The image data can be transferred to an existing PC or Laptop.

306167

€ 3500,-

## EickView PRO HD Upgrade

The EickView PRO HD Upgrade turns the HD Video Processor into a stand-alone and mobile endoscopy unit. Furthermore it opens access to other endoscopic disciplines such as arthroscopy, rhinoscopy, otoscopy, etc. The foldable and rotatable Full HD touchscreen Tablet provides greater functionality because the tablet can not only be used to view images and videos but also for recording, storage and editing. Keyboard is available as an option.

## ENBIO S B-CLASS AUTOCLAVE

### Simple – reliable – fast

The Enbio S is the fastest B-class autoclave on the market. Thanks to its compact size, it fits into every practice and the sterilisation chamber offers enough space for a standard surgical kit. The Enbio S is set up in no time and it is simple and intuitive to use – switch it on, select the mode, sterilise – done!

- Extremely short program times of only 7 to 15 minutes
- Revolutionary low operating costs thanks to Magic Filter
- Very quiet operating noise of only 32 dBA
- Automatic documentation on USB stick
- Highest quality at a low price
- External dimensions (in mm): W 252 x H 162 x D 561
- Weight: 15 kg
